RANEX RUSTBUSTER

Revised August 2007

DESCRIPTION

Ranex Rustbuster converts rust from a detrimental oxide to a beneficial phosphate of iron, chemically destroying any rust present & leaving the surface in a suitable condition for painting when completely dry.

Surface Rust/Tarnishing - removes rust spots, cleans & polishes stainless steel, chrome, brass & copper. Ideal for bikes & tools etc. Rusty parts can be soaked in Ranex .

Stain Remover/Cleaner - Dissolves and cleans off bore water, rust and mineral stains from most internal and external surfaces - toilets, baths, basins, windows, walls, boats & other non - porous surfaces. Some brick surfaces perform better than others.

FEATURES AND BENEFITS

- Penetrates to chemically destroy rust
- Removes surface rust
- Cleans and polishes chrome, brass, copper etc.
- Dissolves & cleans off rust and borewater stains
- Cleans boats

SURFACE PREPARATION

- Remove oil, grease, paint and loose scale.

APPLICATION

* RUST CONVERSION

- Remove oil, grease, paint and loose scale
- Apply Ranex & allow to dry completely in order to penetrate deep rust & to leave surface in a suitable condition for painting with an oil based primer. As Ranex chemically destroys rust it is not necessary to use rust inhibiting paints. Zinc rich paints are not recommended.
- Apply Ranex to the rust effected areas only, wipe off any excess on surrounding metal or paintwork with a damp cloth.
-Note Ranex Rustbuster will convert the rust however it will not prevent it from re-occurring. Treated surfaces left uncoated may experience further rusting.

* SURFACE RUST/TARNISHING

- Apply Ranex with a damp cloth, sponge or fine steel wool. Wipe off promptly & polish with a dry cloth - this application is ideal for restoring tools, chrome, stainless steel, brass, copper, bikes etc.
- To soak rusty parts, leave for a few minutes & then check until satisfactory. Wipe or wash off on completion.

* STAIN REMOVER/CLEANER

- Apply Ranex, allow a few minutes to work & then wipe or hose off - Do not allow to dry. deep seated stains may need further applications & agitation with a brush or light scourer. Spot testing recommended on paintwork & tinted gel-coat

- * NOTE: Avoid contact with vehicle paintwork, Colorbond[®], dry concrete, anti-fouling paint, marble & anodised or galvanised surfaces.
