

ARMA-BLUE Protective Covering

ARMA-BLUE is an ADVANCED PROTECTION SYSTEM BASED ON A CLOSED CELL CROSS LINKED FOAM THERMALLY FUSED TO A STRONG POLY FABRIC – NOT HARMFUL TO THE ENVIRONMENT

ARMA BLUE SYSTEM consists of 2 Types:

- 1) *Plain Commercial grade 2mm thick One Roll = 38 m²*
- 2) *Adhesive backed Commercial grade 2.5 mm thick One Roll = 30 m²*

1) **ARMA-BLUE Plain:** For use by Painters and Decorators to protect flooring and carpets from paint spill (ARMA-BLUE does not absorb liquids) of surfaces. Giving protection against scuffing and scratching of surfaces, and protection of carpets against paint spills, gyprock dust, plaster and other types of trades waste.

Can be used to protect wooden flooring, tiled areas and carpets against damage during restoration works. Roll out over these areas and simply tape joins with ARMA Tape.

ARMA-BLUE Plain Protection is economical, it can be re-used, simply cleaning up surface and rolling up for later use.

APPLICATION FIELDS:

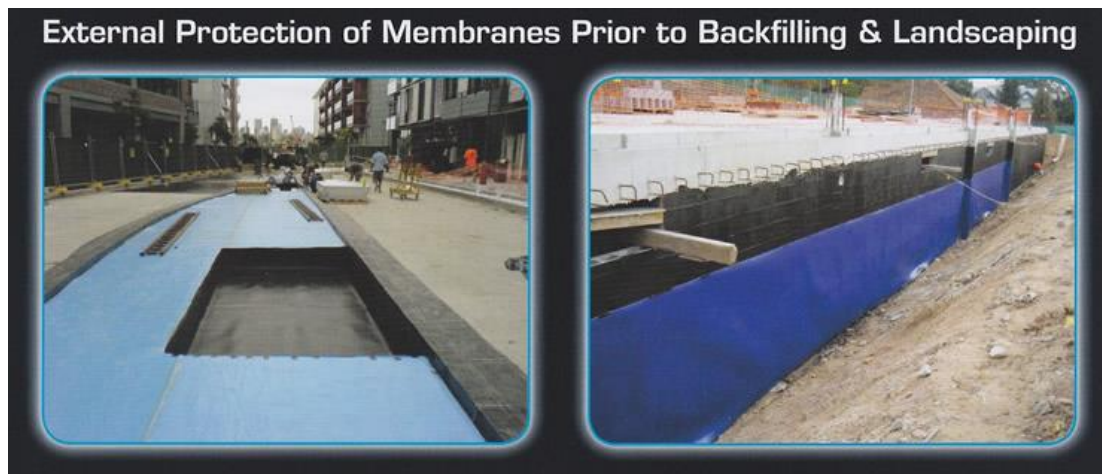

- Any surface in need of protection.
- Polished finishes – Marble, Granite.
- Tiled surfaces.
- Carpet protection.
- Timber Flooring.
- To protect surfaces against impact.

ADVANTAGES OVER OTHER PROTECTION:

- Protects new as well as weak and old substrates against damage.
- Will not decay or rot.
- High abrasion resistance
- Acts as a water barrier.
- Easy to cut and fit to large areas, can be taped in place using ARMA reinforced tape.
- Safe for the user and the environment.
- Ideal for sensitive areas- Hospitals, Schools, office buildings.
- Non-allergenic, mildew, bacteria, insect resistant.
- Faster installation over other protection methods-less labour.
- Lightweight – easy transport
- Can be re-used and re-cycled.
- NOT classified as hazardous material. Environmentally friendly.
- Noise Reduction.
- Will not expand or distort when exposed to heat/sunlight.
- NON peeling,
- Minimal distortion under traffic use.
- Non-scratch backing.
- Will not damage any surface.
- Easy to remove.

2) **ARMA-BLUE Adhesive:** due to the adhesiveness of ARMA-BLUE Adhesive it is ideal for use over carpeted areas in some circumstances whilst doing renovations.

ARMA-BLUE Adhesive is ideal for protecting membranes prior to back filling, and carrying out Landscaping.

APPLICATION FIELDS:

- Carpet protection. Protecting Carpets while area is undergoing renovations
- Protect substrates and surfaces against impact, and to protect waterproofing membranes while back filling.

Not for General Use on any surface due to adhesiveness backing.

Carpeted areas should be tested before using ARMA-BLUE Adhesive to ensure that ARMA-BLUE Adhesive will come off carpet easily

ADVANTAGES OVER OTHER PROTECTION:

- Protects new as well as weak and old substrates against damage.
- Will not decay or rot.
- High abrasion resistance
- Acts as a water barrier.
- Easy to cut and fit to large areas, simply stuck to surface to keep in place. Faster installation over other protection methods-less labour.
- Save for the user and environment.
- Non-allergenic, mildew, bacteria, insect resistant.
- Lightweight – easy transport
- NOT classified as hazardous material. Environmentally friendly.
- Noise Reduction.
- Will not expand or distort when exposed to heat/sunlight.
- NO peeling, will not blow away by wind.
- Minimal distortion under traffic use on carpets.
- Adhesive backing no need for taping or pinning to membranes, so no chance of membrane being pin holed to keep in place
- Will not damage any surface (if used correctly).

MAUFACTURED IN AUSTRALIA

PACKAGING:

ARMA PLAIN: 26 x 1.45 mtr. Roll = 38 m²

Pallet: ROLLS

ARMA ADHESIVE: 25 x 1.20 mtr.Roll = 30 m²

Pallet: ROLLS:

STORAGE:

ARMA PLAIN: 4 Years In a clean and dry Environment

ARMA ADHESIVE: 2 Years In a clean and dry Environment

SAFETY AND HEALTH:

ARMA-BLUE SYSTEM is not classified as hazardous according to the criteria of Worksafe Australia
